

Blevins For Congress

Jeffrey J. Blevins

**Libertarian Candidate for U.S. Congress
Ohio's 16th Congressional District**

Ohioans need a true voice for liberty. Many candidates speak in tones of reds or blues, but what we need are representatives that will speak up for individual freedoms, personal responsibility, and a truly limited government that recognizes its limited role in our daily lives.

Our federal government must practice fiscal restraint and remove legislative shackles that prohibit the free market from flourishing and producing jobs.

We must also pass legislation that keeps more of the hard earned money in the hands of the Americans who earn it. It is Americans that create wealth through our free enterprise system, not government.

-Jeffrey J. Blevins

On The Issues

ECONOMY- We need to stop the out-of-control spending that threatens our nation's fiscal security. We must cut spending and stop the expansion of entitlement programs.

"If your outgo exceeds your income, then your upkeep will be your downfall." –Bill Earle

TAX REFORM- We must simplify the tax code with a fair tax. A fair tax in conjunction with a Balanced Budget Amendment would preserve the value of the American dollar and return the power of the purse string to We the People.

We must also realize that all taxes and fees levied on the business owner eventually find themselves on the doorstep of the employee and consumer. Therefore we must work to reform the way in which our government is financed.

GUN CONTROL- The second amendment was put into the Bill of Rights to protect the rights of patriots to defend their Constitution. It is the people's part of a system of checks and balances that our framers put in place to keep our government in check.

JOB CREATION- Government cannot create jobs, but it has created an atmosphere that prohibits free market businesses from growing and expanding. We must produce legislation that creates an environment that is conducive to the development of small business entrepreneurship; giving all Americans the opportunity to go after their version of the American Dream.
